Running4You provides runners and clubs with a range of tools to maximise performance

With a range of options featuring tools to improve running technique, we can find the right solution to meet your needs.

For Clubs

Coaches can utilise the Running4You apps as a means of extending their support.

For Runners

Users can easily set goals, monitor progress and get advice on how to improve performance.

For Camps

Train with us in the stunning Italian countryside, from the Alps to Tuscany.

What does it do?

Specifically designed to get better results

The Running4You's app is composed of tools designed to support runners, and the platform can also be re-branded for use by running clubs. Runners can easily set goals and sign up for custom training programs, with a variety of features designed to hone technique. Clubs and coaches very quickly see improved performance and motivation amongst users of the Running4You desktop and mobile apps.

Who is it for?

Available as a Lite and Pro app

Runners can select from either the Lite or Pro app, which provide different tools based on the user's needs. Running4You Lite is ideal for beginners, enabling users to track their runs and monitor progress. Our coaches are on hand to offer advice on how to maximise the impact of training sessions. Running4You Pro is suited to the more serious user looking to improve their performance and hone their technique.
